RESIDENTIAL INTELIX PRODUCT SHOWCASE

Liberty AV Solutions' Intelix devices along with our Liberty Wire & Cable products are perfect for residential applications, including whole house audio/video distribution and home theaters.

We can help you select the right products at the right price to create a professional and reliable signal distribution environment that also helps keep you profitable at the same time.

FLX-88 FLEXIBLE CARD-BASED MATRIX SWITCHER - 8 INPUT X 8 OUTPUT

Intelix **FLX-88** matrix provides switching, scaling, format conversation, audio embedding and audio de-embedding all in a modular, card-based package. The Flex Matrix replaces a rack full of traditional gear.

Each system is fully compatible with other Intelix HDBaseT electronics, including twisted pair extenders, auto switching wallplates, and presentation switchers.

MATRIX SWITCHER OUTPUT CARD - HDBASET WITH AUDIO DE-EMBEDDING

FLX-BO4A

MATRIX SWITCHER INPUT CARD - HDMI WITH AUDIO EMBEDDING

FLX-HI4A

MATRIX SWITCHER INPUT CARD - HDBASET

FLX-BI4

DIGI-HD60C-R DIGI-HD60C-S

HDBASET HDMI OVER TWISTED PAIR RECEIVER WITH POWER AND CONTROL

The Intelix **DIGI-HD60C** features power over HDBaseT (POH), allowing flexible power on either the transmitter or receiver. It leverages HDBaseT technology for enhanced transmission over shielded and unshielded twisted pair cabling. Plus, compatible POH devices will power or be powered by the DIGI-HD60C. Built-in bi-directional RS232 and IR control provide additional versatility.

SKYPLAY-MX-R SKYPLAY-MX-S

PROFESSIONAL WIRELESS HDMI RECEIVER & SENDER

The Intelix **SKYPLAY-MX** allows multiple unique systems to operate in the same area. It also constantly monitors sources of wireless interference and, when necessary, automatically changes broadcast channels. It is specifically designed for demanding custom install and commercial applications, including those with WiFi and other sources of wireless interference.

VGA-HD

VGA & STEREO AUDIO TO HDMI CONVERTER

The Intelix **VGA-HD** is ideal for applications requiring analog computer integration into a digital network, such as a home office. It maintains native resolutions to ensure pristine video and has a compact design for easy installation. The dynamic EDID compatibility ensures that PCs default to compatible output resolutions and has built-in EDID presets for common 16x9 and 16x10 output resolutions.
