# ARRIVE INFOPOINT
## Interactive Room Signs with bright status indicators

arrive®
INFOPOINT

Arrive InfoPoint is a turnkey solution that can set-up for a single room or for thousands of enteprise-wide rooms seamlessly with the leading e-mail servers. No additional software is required. Installation is simple, secure, reliable and easy to manage individually or centrally.

MANAGE SHARED WORKSPACES...
SOLVE SCHEDULING CHAOS EASILY.

"AVAILABLE"   "RESERVED"

Arrive InfoPoint is an all-in-one room reservation, digital signage and resource management solution for shared workspaces, anywhere where people meet, learn and teamwork. Do away with the hassles of double bookings, scheduling chaos and interrupted meetings and ensure truly effective facility management.

Book conference rooms easily and have the meeting information presented on the screen. Seamlessly inter-operates with your e-mail service.

Space and booking information is visible on the touch screen including easy features to make announcements, your company logo, digital signage graphics, virtual yellow notes. Also conduct surveys from the same panel.
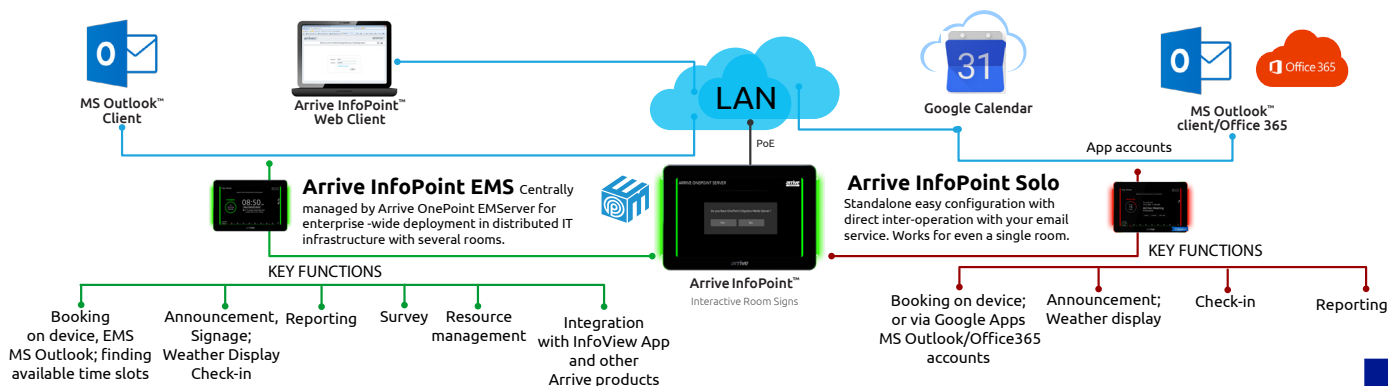

Key Features

Schedule or book directly on device or via email/ calendar app

Make announcements Use as digital signage

Manage shared spaces; maximize use of resources

View real-time data such as user and booking reports
