ESWC3600H – 36” Hinged Cover

Technical Data

Product Description

The ESWC3600H – 36” hinged cover for the ESWI3600 enclosure. The cover is constructed of 16 gauge steel with two pin hinges for easy movement and long lasting. The cover also extends past the enclosure a ½” on all four sides coving up the edge of the sheetrock. The cover is a two door design. The upper door is 12” and the lower door is 24”. A new and unique locking screw is used so no keys or tools are needed to open the door. This hinged door gives anyone easy access to the panel providing user-friendly management and control of video, telephone, audio, and networking signals throughout the home or office
