

7", 10" and 15" In-Wall Boxes for Tablets

MWB-7-MCT - 7" Wall Box

MWB-10-MCT - 10" Wall Box

MWB-156-MCT - 15" Wall Box

Tablet sold separately

Specifically designed to fit our products seamlessly, our in-wall tablet enclosure is the perfect synthesis of form & function. With only 2.5mm outside the wall cavity, its ultra-low profile design and black color will look great in any environment and is perfect for retrofit and new construction applications. Easy one-cut, drop-in installation with simple rotating mounting flanges to engage drywall with ease. With plenty of extra room, you can use the in-wall box to hide additional electronics. Every piece is made from high quality metals - for uncompromising strength, durability, and outstanding aesthetics.

The removable snap-on cover allows easy access to the enclosed tablet - yet remains firmly in place, thanks to its snap fasteners. With the cover in place, access to the touch function is not inhibited, while hiding access to cables and other system ports, functions, and switches. The cover is held firmly in place via our precision fitted fasteners - yet is easily removed with just a small amount of force to disable or remove the tablet if needed.

Our tablet enclosure can be mounted in portrait or landscape orientations.
