

# QIG NWAC7000 Wireless Management Platform

1. Go to [www.niveoprofessional.com/smartlink](http://www.niveoprofessional.com/smartlink)
2. Create an installer account:

## Register

A screenshot of the Niveo SmartLink registration page. The page has a blue header with the Niveo logo on the left and a 'Sign Out' link on the right. Below the header is a white box titled 'Create' with a document icon. Inside this box are five form fields, each with a red bullet point on the left and a placeholder text on the right: 1. 'Account' with the value 'Setup' and placeholder 'Please enter a use name'. 2. 'Password' with a masked value '....' and placeholder 'Please enter the password'. 3. 'Confirm password' with a masked value '....' and placeholder 'Please enter a password'. 4. 'Nickname' with the value 'setup' and placeholder 'Enter nickname'. 5. 'Address' with the value '4860 Louise Drive , San Diego, USA' and a blue 'search' button to its right. Below the address field is a small map snippet showing streets like 'Cervantes', 'Norfolk St', 'Hudson St', and 'Greycourt Ave'.

After creating account

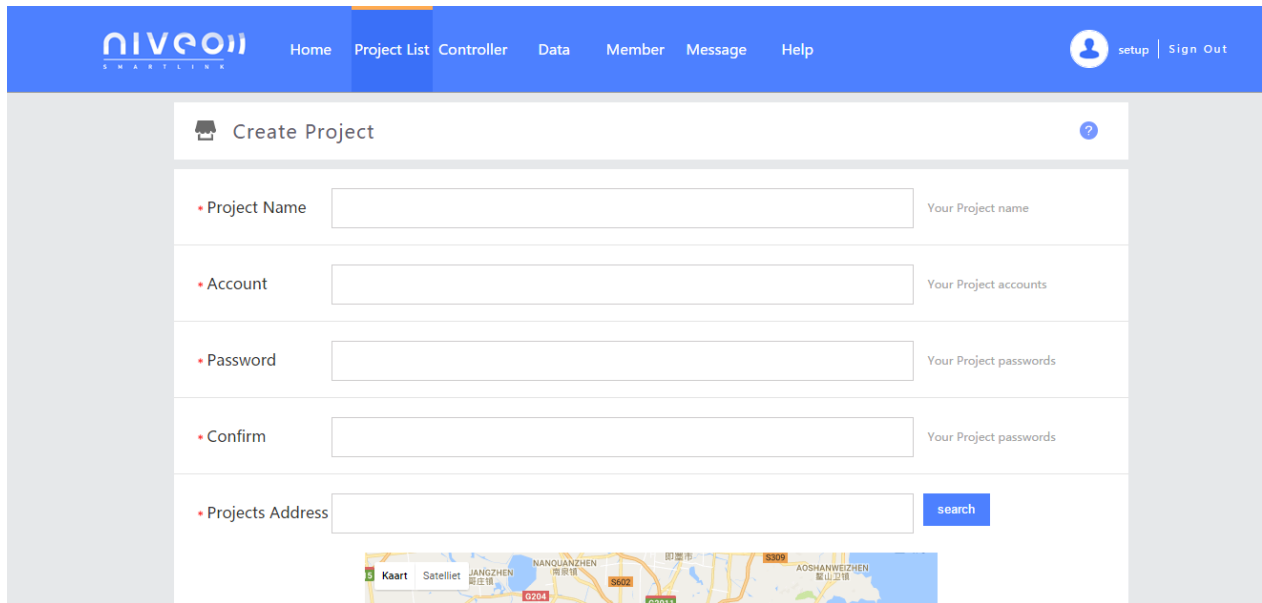

Go to login and sign in:

You will get this screen:

Create a Project:

Fill in:

The screenshot shows the 'Create Project' form in the Niveon SmartLink application. The form includes the following fields:

- Project Name:** Guesthouse
- Account:** Test (highlighted with a red box)
- Password:** ....
- Confirm:** ....
- Projects Address:** 1104 Regentstreet, Washington, USA

Below the address field is a map showing the location. The 'Account' field is highlighted with a red box.

Please take extra caution creating the accountname:

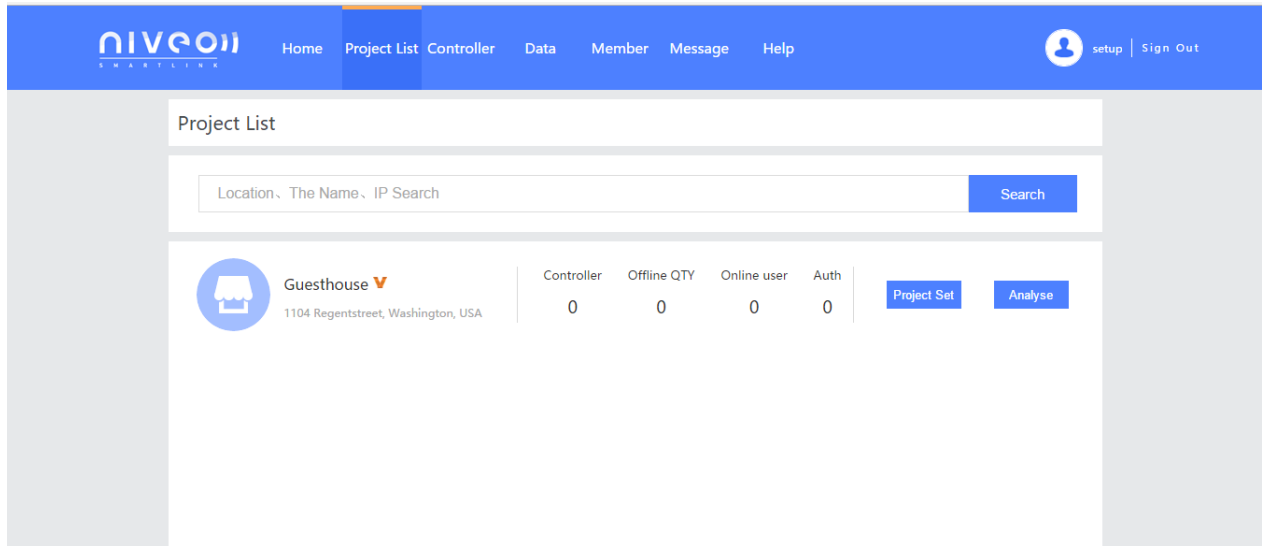

The screenshot shows the 'Images Project' form in the Niveon SmartLink application. The form includes the following fields:

- Images Project:** C:\fakepath\IMG\_0001.JPG (highlighted with a red box)
- Phone:** 123456789
- Opening hours:** 8:00-19:00
- Description:** lighthouse

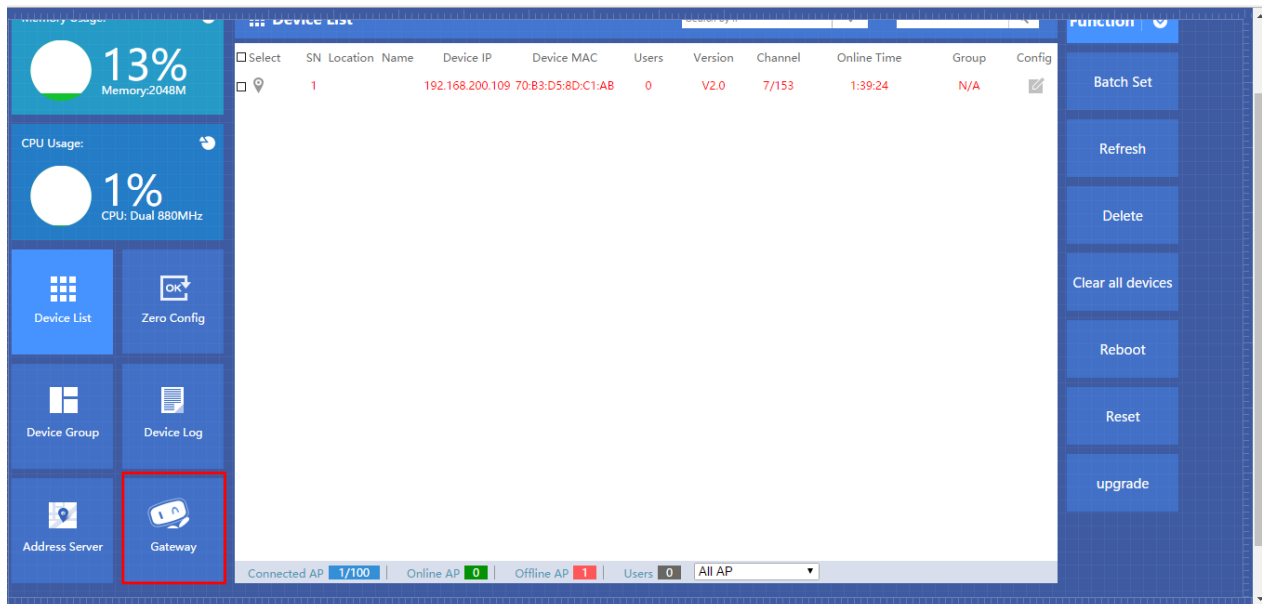

At the bottom of the form, there is a 'Register' button (highlighted with a red box) and a 'Sign Out' link.

Please select a picture or logo of the project

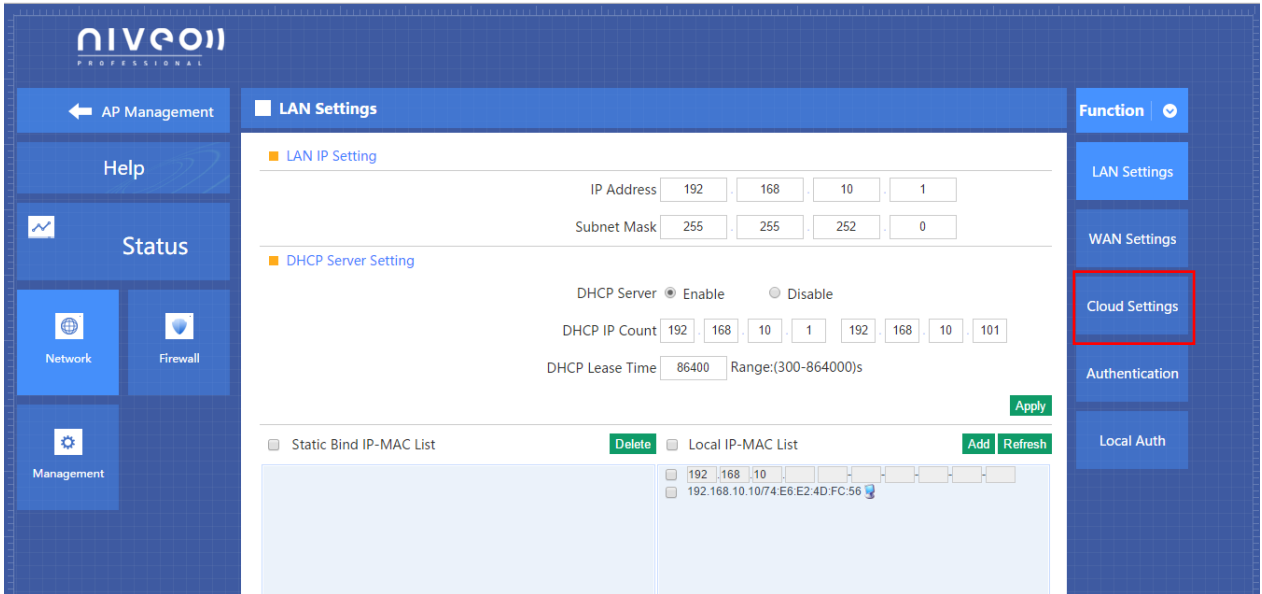

After this you have created project:

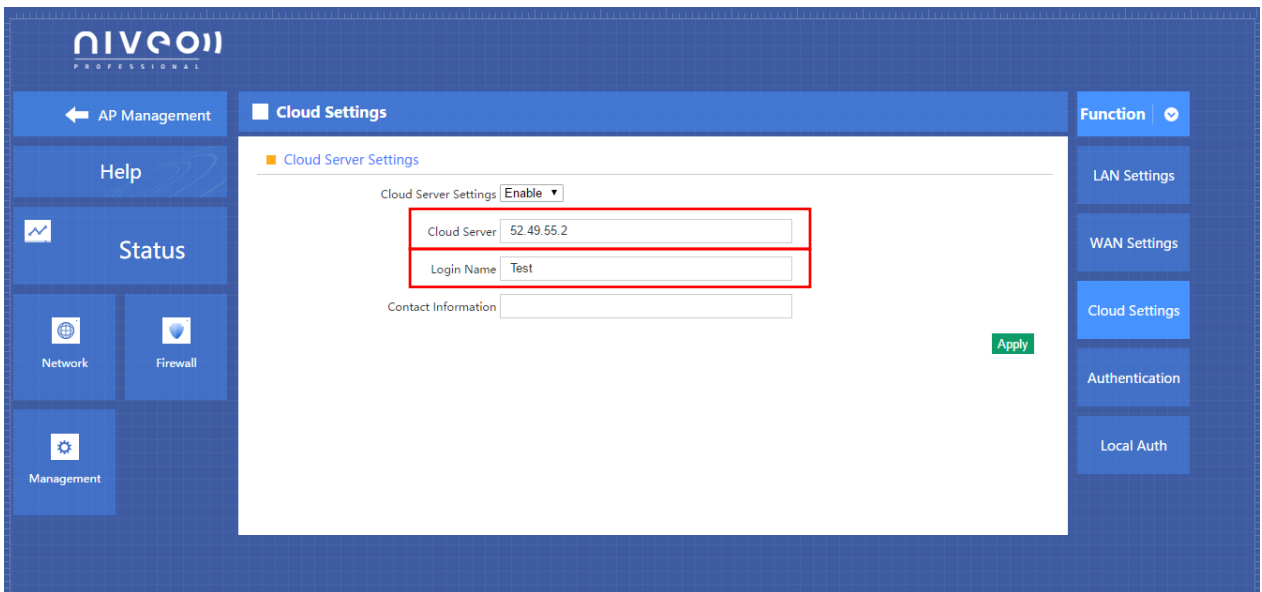

Login Controller:

Select “ gateway” mode and “ Cloud Settings

3. Please make sure that the correct cloud server address: **52.49.55.2** is selected

4. Fill in login name:

**Make sure that Login name is exactly the same as Account name: in this case it is: Test**

5. Press “ Apply”

Go To: [www.niveoprofessional.com](http://www.niveoprofessional.com)

## 1. Select Smartlink

The screenshot shows the top navigation bar of the Niveo Professional website. The main navigation menu includes 'HOME', 'PRODUCTS', 'TRAINING & SUPPORT', 'SMARTLINK' (highlighted with a red box), and 'ABOUT NIVEO'. Below this is a dark blue banner with the 'SMARTLINK' logo and 'HOME | SMARTLINK' text. The main content area features three columns: a left column with the text 'Use SMARTLINK to monitor and control all your Wireless Access Points' and a red-bordered 'NIVEO SMARTLINK' logo; a middle column with the text 'Manage and control all your Niveo Professional network devices as well as EVERY DEVICE AND CONTROL SYSTEM in the network!' and a 'NIVEO SMARTLINK Powered by Mikrotik' logo; and a right column with a 'SUBSCRIBE TO OUR NEWSLETTER' form including a checkbox, a text input field for 'YOUR EMAIL ADDRESS', and a 'SUBMIT' button.

sign in again:

The screenshot shows the login page of the Niveo Professional website. The background is a cityscape view from a high-rise building. The page features the 'NIVEO SMARTLINK' logo and the tagline 'YOUR GATEWAY TO REMOTE MANAGEMENT'. A central white login form is overlaid, containing a 'Sign in' header, a 'Setup' dropdown menu, a text input field with '9174', a password field with a green eye icon, and a blue 'Login' button. Below the button are links for 'Forgot the password? Click here!' and 'Register immediately!'.

Now you see the project added to your account:

The screenshot shows the NIVEOII SMARTLINK dashboard. At the top, there is a navigation bar with the logo and menu items: Home, Project List, Controller, Data, Member, Message, Help. On the right, there are links for 'setup' and 'Sign Out'. Below the navigation bar, the main content area is titled 'Installers home' and includes a 'System message' section. A dashboard overview shows five metrics: 0 Online user, 1 Project, 0 Auth QTY, 1 Controller, and 0 Offline QTY. Below this is a 'Project list' section with a 'More' link and a 'Create' button. A search bar is present with the placeholder text 'Project' and a 'Search' button. The project list contains one entry for 'Guesthouse' located at '1104 Regentstreet, Washington, USA'. This entry is highlighted with a red box. The entry details are as follows:

Project Name	Controller	Offline QTY	Online user	Auth	Actions
Guesthouse 1104 Regentstreet, Washington, USA	1	0	0	0	Project Set, Analyse

Click Project set:

This screenshot is identical to the one above, but the 'Project Set' button for the 'Guesthouse' project is highlighted with a red box, indicating the next step in the process.

[Config](#)

1 record page 10 / 1

Click: "Config"

Now you can monitor and control the APs connected to the controller.

The screenshot shows a 'Control' window with a search bar and a table of APs. The search bar contains 'Model, IP, Gateway' and a 'Search' button. The table has columns for IP, Type, User, SSID, MAC, Location, and Operate. Two APs are listed:

IP	Type	User	SSID	MAC	Location	Operate
192.168.200.49	NWA300	0	TEST_WIFI TEST-WIFI 5.0	70:B3:D5:8D:C1:6F		Restart Reset Wireless Wireless2
192.168.200.109	NWA300	0	Wireless 2.4G Wireless 5.8G	70:B3:D5:8D:C1:AB		Offline

At the bottom of the window, it says '2 record page 10 1/1'.

Remember to predefine the APs in the controller itself.

## Creating Authentication page

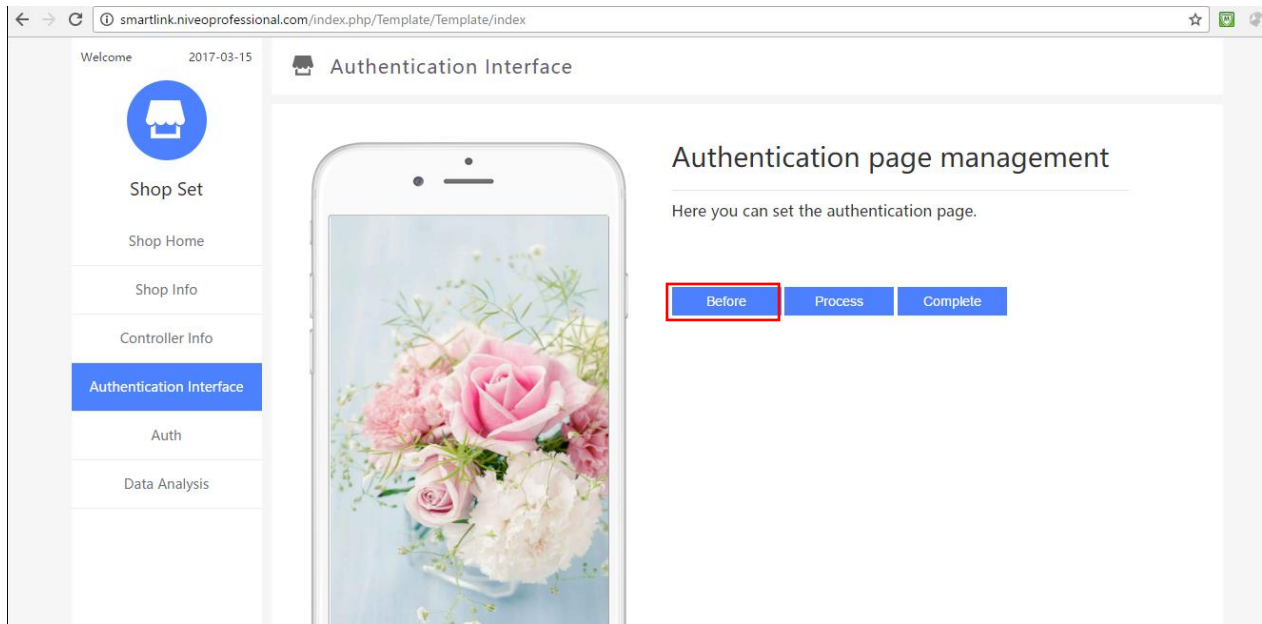

Click: "Authentication Interface"

The screenshot shows the main dashboard of the Nivoon SmartLink system. The top navigation bar includes 'Home', 'Project List', 'Controller', 'Data', 'Member', 'Message', and 'Help'. The sidebar on the left contains 'Project Set', 'Project Home', 'Project Info', 'Controller Info', 'Authentication Interface' (highlighted with a red box), 'Auth', and 'Data Analysis'. The main content area shows 'Project Info' for 'Guesthouse' and 'Project Account' details. Below that is a 'Controller Info' table:

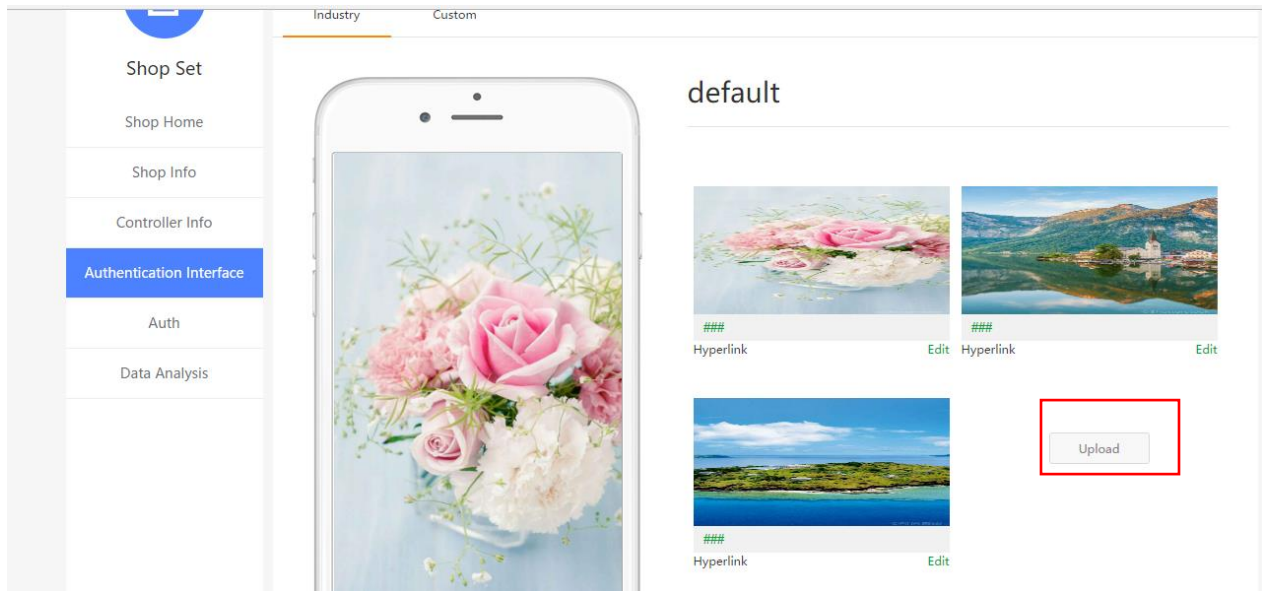

Controller model	MAC	IP	State
NWAC7000	70B3D58DC1D0	192.168.178.19	Normal

The 'Auth Page' section shows 'Template Name : default' and 'The page Title : Guesthouse'. A mobile phone icon is visible at the bottom right.

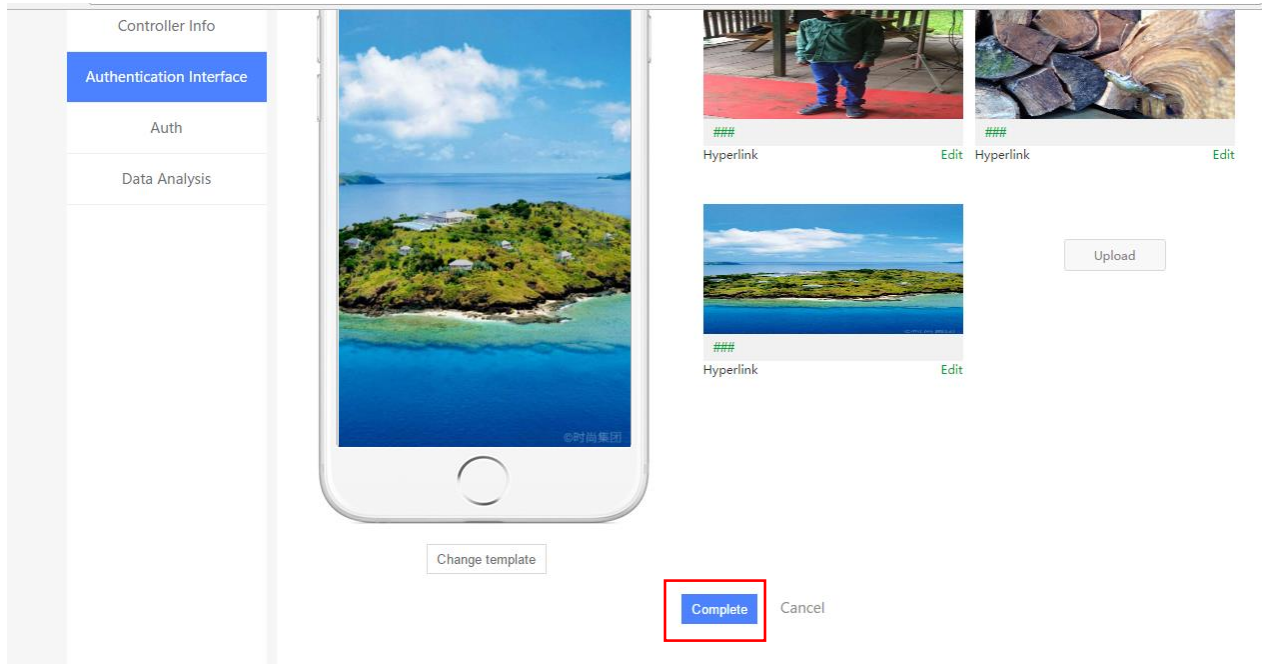

Click: "Before"

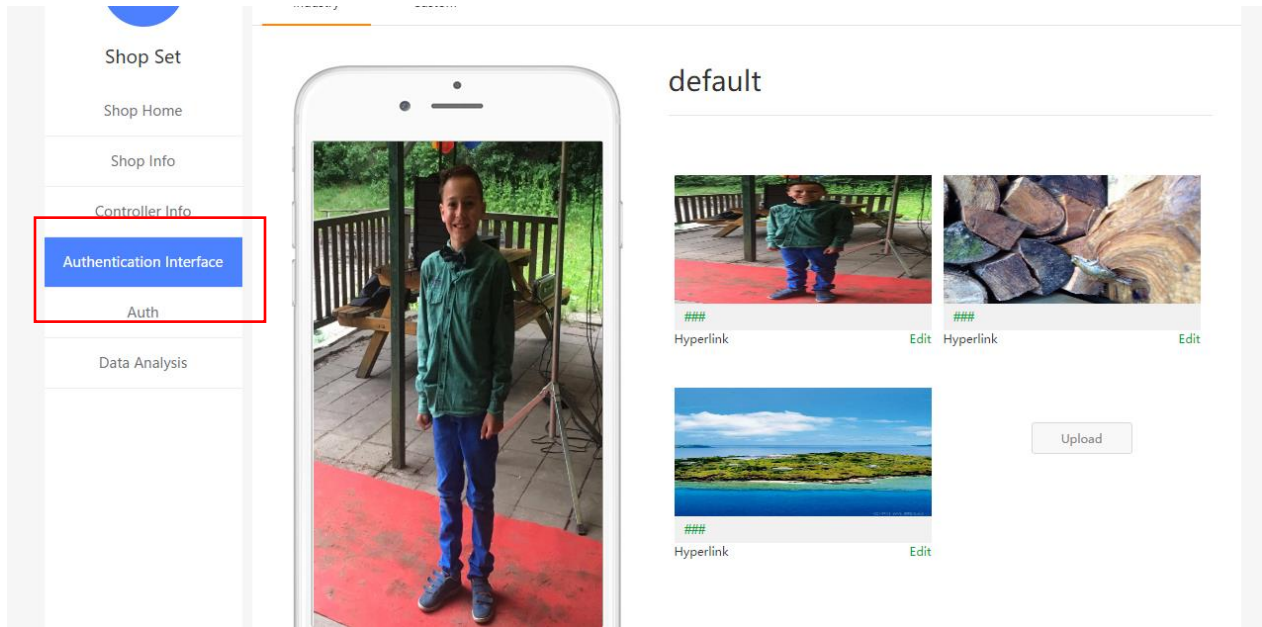

Select the picture you want.

Upload picture/logo you want:

Select and click: "complete"

Click: "Authentication Interface" again

Click: Submit"

Go to Authentication

Click: "Aut"

The screenshot shows the Niveo Professional web interface. The top navigation bar includes the Niveo logo, a menu with 'Home', 'Project List', 'Controller', 'Data', 'Member', 'Message', and 'Help', and a user profile icon with 'setup' and 'Sign Out' options. The left sidebar contains a 'Project Set' icon and a list of menu items: 'Project Set', 'Project home page', 'Project info', 'Controller Info', 'Authentication Interface', 'Auth' (highlighted in blue), and 'Data analyze'. The main content area is titled 'Authentication Settings' and features four authentication methods: 'Member', 'No auth' (selected with a checkmark), 'Google', and 'Facebook'. Below these, the 'No auth' section is active, showing a 'Stay time' dropdown menu set to '5s'. A 'Parameter set' section is visible at the bottom of the main content area.

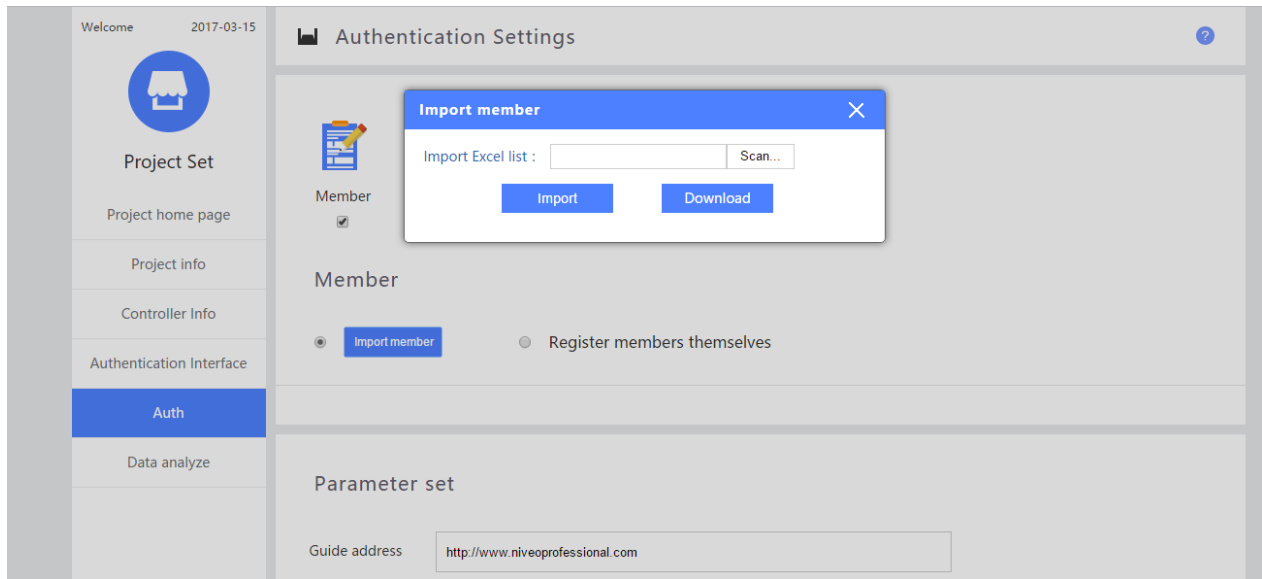

In default, no authentication is required

Select: "member"

This screenshot shows the same Niveo Professional interface, but with the 'Member' authentication method selected. The 'Member' option now has a checkmark, while 'No auth' is unselected. The 'Member' section is active, displaying two radio button options: 'Import member' (selected) and 'Register members themselves'. The 'Parameter set' section at the bottom now includes a 'Guide address' input field containing the URL 'http://www.niveoprofessional.com'.

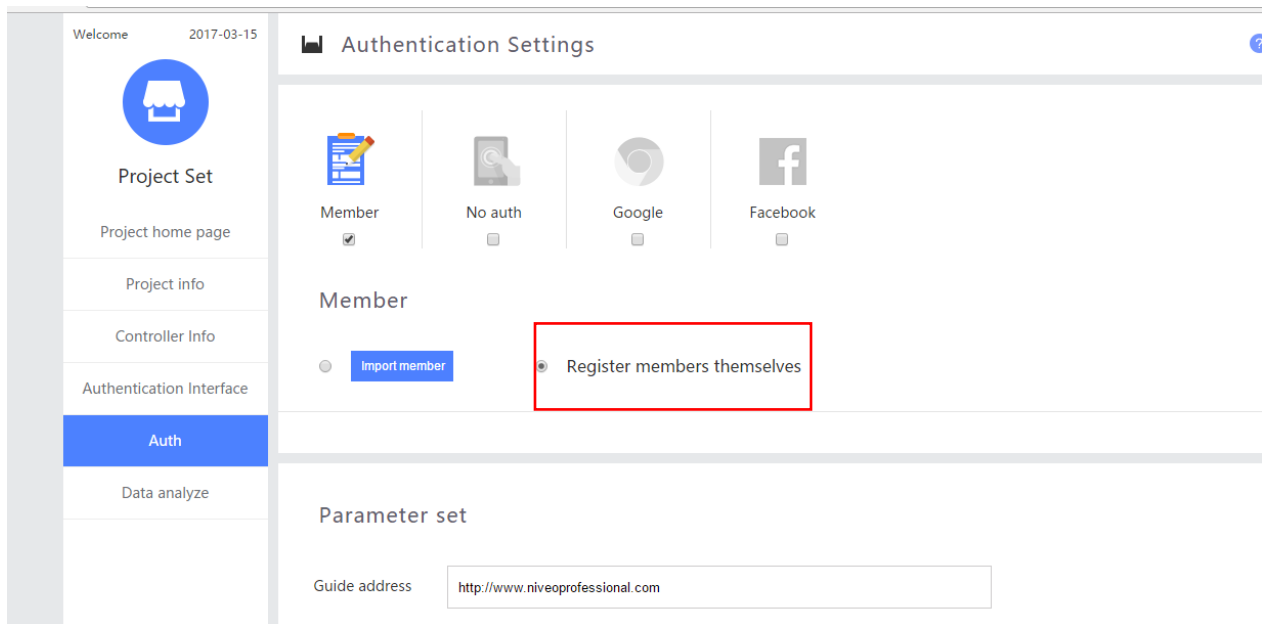

If you select: Import member, only users predefined can connect

When you select: " Register members themselves"

People can do their own log in.

Set Parameter for webpage you want to redirect.
