## DIGITALINX 'ARK SERIES': ADVANCED ROOM KITS

**Perfect for Classrooms, Training Rooms and  
Conference Rooms**

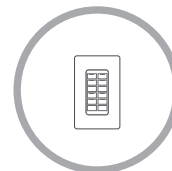

Classroom AV Technology has never been easier to use – The New Digitalinx 'ARK Series' Advanced Room Kit offers maximum flexibility, excellent quality and performance, and amazing affordability for today's classroom. With the added benefit of remote monitoring and management the system and room use can be monitored, controlled, and powered off to save energy. This 4-input system includes a 3-piece kit including input plate, control plate, and receiver/processor.
