

iR37 - Alternative Voice Messages

Please copy the directory "face voice" as it is to a USB/ thumb drive.

- Go to the device/s.
- Enter your password.
- Go to system settings.
- Go to voice settings.
- Insert the USB drive.
- Go to "import voice".
- All of the voices as below are now on the device and may be selected.
- To select an alternative voice message.
- Go to Voice Settings.
- Go to Normal Voice or Abnormal Voice or Mask Voice.
- Scroll up/down.
- Tap the desired voice message.
- A tick will appear next to the selected voice.
- Tap OK.

You may of course record and add your own voice message in any language simply as an mp3 file.

NORMAL messages provided here are:
