

Remote Management

REAL-TIME MONITORING AND MANAGEMENT OF HOME TECHNOLOGY

Introducing the newest cloud-based network manager from the leader in residential networking solutions.

- CX Home is a cloud based monitoring and management service platform designed to optimize the customer's experience. The platform is comprised of an intelligent ecosystem of tools and dashboards that allow the homeowner to maximize their home technology and managed service professional to provide proactive support.

Developed by Liberty, with over 30 years of AV industry leadership, CX Home delivers exceptional performance, reliability, and efficiency to keep you focused on what really matters...your customers.

- Optimized customer experience with real-time monitoring and management of their home technology
- Aggregated simple control and monitoring dashboard of network, connected devices
- Remote remediation allows for reduced truck rolls and unneeded site visits
- Proactive monitoring allows for no-to-less time of the network, power and devices being down
