

A Powerful Combination.

DIGITALINX DL-PSMV62 PRESENTATION SWITCHER WITH MULTI-VIEW & UI CREATOR CONTROL

- Switch up to 6 AV sources
- Show up to 4 sources on 1 screen
- Latest in connectivity
- Audio & mic inputs
- IP control

Liberty AV's Digitalinx series presentation switcher with multi-view combined with Arranger UI Creator control creates a powerful yet affordable combination for today's presentation and learning spaces.

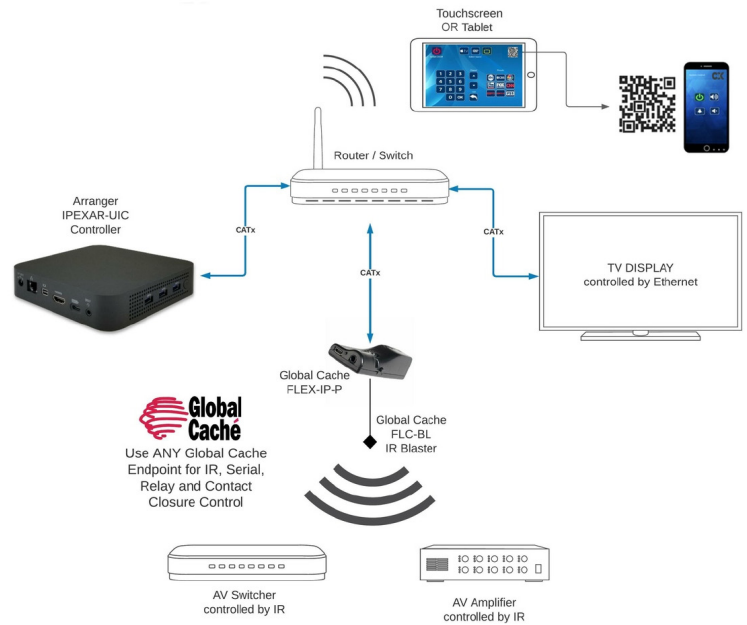

With the ability to switch up to 6 AV sources and show up to 4 on the same screen at the same time, audio & mic inputs, IP control, and the latest connectivity including USB-C, **DL-PSMV62** delivers.

Combining the Digitalinx series switcher with the powerful new Arranger UI creator control system delivers multiple ways to easily control the room. From touch screen to handsfree QR code based control, UI Creator can control all AV devices using IP, RS232, or IR.
