WESCO Broadcast and Entertainment services a wide variety of customers and industries including system integration, broadcast networks, rental and staging, stadiums/large venues, houses of worship and mobile production. Our commitment to industry leading response times, breadth and depth of product, custom products, and logistical services provide our customers with unparalleled customer service and a wide range of solutions to help build and maintain their mission critical systems in any environment.

OUR WESCO RESOURCES

WESCO Distribution is a leader in industrial supply with an extensive offering of electrical, data communications, general maintenance, repair, operating (MRO) and electrical OEM products. We are more than just an electrical distributor; we are a company of procurement specialists, helping customers lower supply chain costs, increase efficiency through WESCO Value Creation and save energy with green and sustainability initiatives.

TVC Communications, a Division of WESCO Distribution, Inc., has proven itself to be a valued partner to both the broadband cable and telecommunications industries. The strength of our product and brand offerings is unmatched in our industry. We are backed by close working relationships with top manufacturers and have a deep understanding of the applications and technology behind the products we sell.

Founded in 1972, Communications Supply Corporation (CSC), a subsidiary of WESCO International, Inc. (NYSE: WCC) distributes a wide range of data communications and security solutions from the industry's leading manufacturers. Together, CSC and WESCO form the largest data communications, security and electrical network in North America with nine distribution centers, over 475 full-service branches and an international network designed to scale.

Safety is all we sell. Conney Safety is one of the largest distributors of products and safety equipment designed for people in the workplace. Our Certified Safety Professionals have helped customers in thousands of situations. There are few problems they haven't encountered. A call to Conney can save you hours of research and the combination of size and specialization brings you powerful advantages.

Providing one of the broadest ranges of professional AV products available, Liberty AV Solutions has evolved from being one of the world's premier suppliers of wire and cable into a solutions-based company known for its wide ranging product offering and stellar customer service. We continue to lead the industry with our standard and break-through products of bulk & premade cable, connectors, plates and tools but also offer power management and rack enclosures, plus an entire line of digital devices when Intelix became part of the Liberty family in 2011.

OUR PARTNERED SOLUTIONS

Arrive's Edgeless Media® architecture is created to provide the ability for systems integrators, IT Managers and Facility Managers to benefit from the AV-IT crossover opportunity of merging the wired world of AV with the wireless and cloud of IT.

The catalog of products includes sound reinforcement systems; emergency communications systems; intercom/telecom products; residential infrared electronics; sound masking systems; IP addressable public address system technology, electronic equipment cabinetry; indoor/outdoor loudspeaker systems; microphone stands, speaker stands and accessories.

For more than 90 years, our company has been mastering the challenges of an ever-evolving business environment. Tripp Lite offers more than 2,500 products, ranging from network-grade UPS systems to cables for every application.

Celerity Technologies develops high performance, easy to use fiber optic products for residential and commercial AV systems. Detachable Fiber Optic HDMI is successful with professional AV installers for single and multi-room video systems. Celerity's sleek, thin fiber optic cable with detachable connectors and high bandwidth makes it easy for installation and provides the ultimate video performance.
