

**PRODUCT RELEASE**

**HDMI MEETS ETHERNET**

Introducing the Intelix DIGI-HDE Twisted Pair Extender Set –the first of Liberty AV Solutions HDBaseT product family-provides the capability to simultaneously distribute HDMI and Ethernet streaming video from source to display up to 100 meters over a single twisted pair cable. The DIGI-HDE extends HDMI with multi-channel digital audio, 100BaseT Ethernet, bi-directional

IR and RS232 over a single twisted pair cable. Supports 1080p, 4K x 2K, and 3D video up to 100 meters. Incorporates HDshāk® processing to ensure reliable hand shaking between source and display. HDCP & HDMI v1.4 compliant. Features built-in surge protection and diagnostic LEDs to ensure hassle free and reliable installations.
