Tired of frustrating connectors that are impossible to terminate, have a high failure rate, or are overpriced? It's maddening... and expensive!

Terminating Category Cables can be a challenge... Choosing the proper connectors and termination tools that are inexpensive, easy to terminate, and less likely to fail upon installation makes this process even more of a challenge. Easy to use and flexible systems are often very expensive, plus the increasing bandwidth needs for higher video resolutions makes cable and connector selection more important than ever.

ENTER THE REVOLUTIONARY CONNECTEC CAT BY LIBERTY AV SOLUTIONS
