YOUR FIRST CALL FOR MISSION CRITICAL SUPPORT - WHATEVER YOU NEED

WESCO Broadcast & Network Solutions offers a wide variety of fiber solutions which are designed to keep you on the air. WESCO's own Fibertron facility has the expertise to provide you with the right products and information. Custom assemblies are manufactured in the USA in a Commscope and Corning Gold Certified facility. These assemblies include SMPTE hybrid fiber optic and tactical fiber cables for portable applications or harsh environments.

SMPTE HYBRID FIBER OPTIC & TACTICAL FIBER CABLES:

- Designed for portable applications
- Basic 9.2mm SMPTE cables to harsh environment products
- Certified by Canare and Lemo approved
- Industry Certifications in virtually every major marketplace for performance, configuration, labeling and packaging.
- Lightweight portable 7.8mm products also available for Steadicams
- Standard Cable Lengths Available in stock

SMPTE PATCH PANELS AND ENCLOSURES:

- Reversible front panel for inward or outward angle positions
- Discrete connectivity available in SC, ST, LC and FC connections
- Front panel available pre-loaded with LEMO, Canare or Neutrik connectivity
- Up to 8 available cable glands with various sizes available
- Fusion Splice option available, up to two splice trays
- Includes power/adaptor plate bracket

CUSTOM FIBER OPTICS FOR ALL YOUR POINT-TO-POINT CABLING NEEDS:

- Custom Fiber Install Cables
- Custom Fiber Patch Cords
- Data Center configurations
- Pro A/V configurations
- Standard Fiber Patch Cords
- Field termination tools
- Fiber cleaning kits

Fiber patch cords are some of the most commonly used — and needed — fiber products around. They can vary wildly in price, quality, performance, and longevity. Fibertron provides five distinct patch cord offerings to meet your specific demands, when and where you need them. Fibertron stocks a wide range of fiber counts, jacket types, and all the necessary connector types to design and build a variety of multi-fiber assembly combinations that meet your specific application requirements.

FIBER PATCH CORDS 1F + 2F:

- Value — A value line of imported fiber patch cords that meets the needs of ultra-competitive, import-approved specifications
- Standard — A high-quality, competitively priced domestic-built fiber patch cord
- Custom — Designed and built to customer specifications.
- Corning Gold by Fibertron — Corning Gold-certified fiber patch cords made by Fibertron
- CommScope Certified by Fibertron — CommScope-certified and warrantied fiber patch cords built by Fibertron

MULTI-FIBER ASSEMBLIES:

- Various fiber counts, types, and jackets
- Short lead times, fast turnaround
- Reduced installation time
- Reduced labor costs

VALUE ENGINEERED SOLUTIONS (VES):

- Value Engineered Solutions and services by Fibertron saves you time and money by delivering efficient, cost-effective, pre-installed, pre-tested hardware and fiber configurations that are designed to your project specs and ready to deploy and perform.
- Reduce your on-site labor costs and waste
- Ease of installation

FIBERTRON

For High-Quality, Custom Fiber Optic Solutions, Make Your Choice Fibertron, WESCO's dedicated fiber assembly company. Fibertron has been making Fiber optic Assemblies since 1985 and they excel in specialty Fiber optic assemblies. From military/tactical government assemblies to the most rigorous specifications, Fibertron is your source.

Whether you're building a data center from the ground up, retrofitting a data communications closet, or setting up smart city infrastructure, fiber optics are a necessity — now and well into the future. To help you save time and money.

As an ISO 9001-certified internal resource for WESCO, Fibertron offers high-quality, superior-performance fiber optic products, assemblies, and solutions that are customized to your specifications, budget, and project dynamics.

With its wide range of in-stock, certified fiber patch cords, tailored multi-fiber assemblies, value engineered solutions, and technical expertise, Fibertron meets the most challenging fiber cabling needs.

Fibertron's Key Benefits

- Competitive pricing
- Customization/consultation
- Pre-tested/pre-installed solutions ready to perform
- CommScope-and Corning Gold-certified offerings
- 25-year product warranty
